## Student Attendance Procedures

## Revised Jan 2023

## 1. School Attendance NSW DoE

Kempsey East Public School is a community committed to excellence and care. Expectations around school attendance are summarised by the DET as follows:

The government school system in New South Wales exists to provide high quality education for all students. The Education Reform Act 1990 outlines the objects of education and the legal requirements for compulsory schooling.

In brief, the legislation requires students between the ages of six and fifteen to be enrolled at a government or registered non-government school, and to attend school on each day that instruction is provided or to be registered for home-schooling. It is the duty of the parent or carer of the student to ensure that these obligations are fulfilled.

Enrolment of Students in NSW Government School: A Summary and Consolidation of Policy (PD/2002/0006/V01)

Regular attendance at school for every student is essential if students are to achieve their potential, and increase their career and life options. Schools in partnerships with parents are responsible for promoting the regular attendance of students. While parents are legally responsible for the regular attendance of their children, school staff, as part of their duty of care, record and monitor part and whole day absences. Schools, in providing a caring teaching and learning environment, which addresses the learning and support needs of students, including those with additional learning and support needs or complex health conditions, foster students' sense of wellbeing and belonging to the school community.
